

Our alumni are on the front lines, whether clinically or administratively. You've been challenged as professionals, as leaders and as humans. You've learned and grown so much. You're exhilarated with the prospect of wide vaccination distribution, yet you're exhausted from the year and continued spread of the virus.

We're here for you.

We redesigned and repurposed the Virtual Peer Support sessions that we ran weekly in the spring of 2020. Never did we imagine we would still be so gravely challenged by COVID-19 nearly a year later.

The Hanley Center will join you on ZOOM, weekly for 1 hour, to make sense of what you've come through and how you're maintaining your resiliency. Your alumni peers will be there for you as well.

This is a **safe supportive VIRTUAL space** where you can **receive and share support, experiences & hope** with other healthcare providers and leaders from across the state. This is not just for front-line providers and leaders, but also for those of you coordinating vaccine clinics, keeping your clients and patients safe and managing the impact of the pandemic on your organization's operations.

Our First Pandemic Sense-Making Session: Friday, February 12th, NOON to 1 pm. We will try the NOON hour first, and if it does not work, we'll also try early morning.

Drop in whenever and for however long you can!

Find the ZOOM video link and conference line info at:

Time: Every week on Friday, 12 pm – 1 pm
