

ageism

discrimination or bias on the basis of age

systemic ageism is age-related bias *across society*.

Systemic ageism shows up in:

cultural
MESSAGES

distribution of
RESOURCES

policies and
RULES

Living inside of that system affects our:

*Interactions
among people*

*Thoughts and beliefs about
aging and older people*

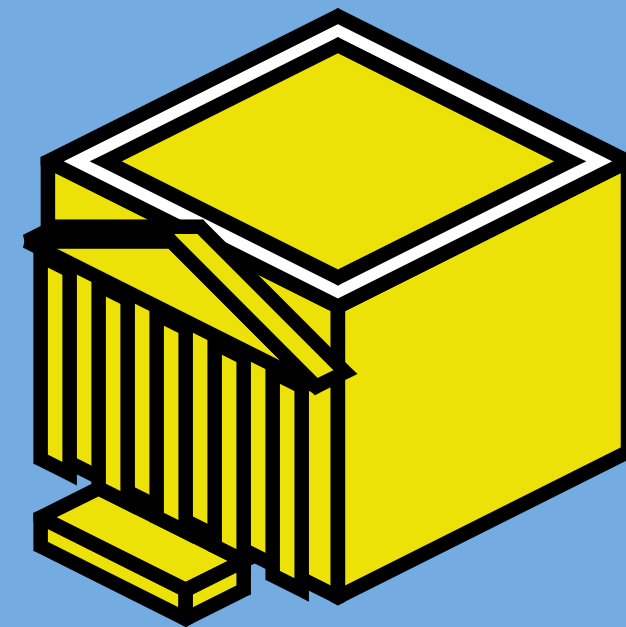

*Institutional policies
and practices*

**interpersonal
ageism**

**internalized
ageism**

**institutional
ageism**

Ageism has its worst effects when it intersects with other forms of discrimination.
